under this Act are apportioned among the States for the fiscal year.

Such apportionments shall be adjusted equitably so that no State shall receive less than one-half of 1 per centum nor more than 5 per centum of the total amount apportioned. The term fiscal year as used in this Act shall be a period of twelve consecutive months from October 1 through the succeeding September 30, except that the period for enumeration of paid hunting-license holders shall be a State's fiscal or license year.

(c) One-half of the revenues accruing to the fund under this Act each fiscal year (beginning with the fiscal year 1975) from any tax imposed on pistols, revolvers, bows, and arrows shall be apportioned among the States in proportion to the ratio that the population of each State bears to the population of all the States: *Provided*, That each State shall be apportioned not more than 3 per centum and not less than 1 per centum of such revenues and Guam, the Virgin Islands, American Samoa, Puerto Rico, and the Northern Mariana Islands shall each be apportioned one-sixth of 1 per centum of such revenues. (1) The Secretary of the Interior shall make the following apportionment from the Wildlife Conservation and Restoration Account:

(A) to the District of Columbia and to the Commonwealth of Puerto Rico, each a sum equal to not more than one-half of 1 percent thereof.

(B) to Guam, American Samoa, the Virgin Islands, and the Commonwealth of the Northern Mariana Islands, each a sum equal to not more than one-fourth of 1 percent thereof.

(i) one-third of which is based on the ratio to which the land area of such State bears to the total land area of all such States; and

(ii) two-thirds of which is based on the ratio to which the population of such State bears to the total population of all such States.

(B) The amounts apportioned under this paragraph shall be adjusted equitably so that no such State shall be apportioned a sum which is less than one percent of the amount available for apportionment under this paragraph for any fiscal year or more than five percent of such amount.

(3) Of the amounts transferred to the Wildlife Conservation and Restoration Account, not to exceed 3 percent shall be available for any Federal expenses incurred in the administration and execution of programs carried out with such amounts.

(d) WILDLIFE CONSERVATION AND RESTORATION PROGRAMS.—

(1) Any State, through its fish and wildlife department, may apply to the Secretary of the Interior for approval of a wildlife conservation and restoration program, or for funds from the Wildlife Conservation and Restoration Account, to develop a program. To apply, a State shall submit a comprehensive plan that includes—

(A) provisions vesting in the fish and wildlife department of the State overall responsibility and accountability for the program;

(B) provisions for the development and implementation of—

(i) wildlife conservation projects that expand and support existing wildlife programs, giving appropriate consideration to all wildlife;

(C) provisions to ensure public participation in the development, revision, and implementation of projects and programs required under this paragraph.

(D) WILDLIFE CONSERVATION STRATEGY.—Within five years of the date of the initial apportionment, develop and begin implementation of a wildlife conservation strategy based upon the best available and appropriate scientific information and data that—

(i) uses such information on the distribution and abundance of species of wildlife, including low population and declining species as the State fish and wildlife department deems appropriate, that are indicative of the diversity and health of wildlife of the State;

(ii) identifies the extent and condition of wildlife habitats and community types essential to conservation of species identified under paragraph (1);

(iii) identifies the problems which may adversely affect the species identified under paragraph (1) or their habitats, and provides for priority research and surveys to identify factors which may assist in restora-

tion and more effective conservation of such species and their habitats;

(iv) determines those actions which should be taken to conserve the species identified under paragraph (1) and their habitats and establishes priorities for implementing such conservation actions;

(v) provides for periodic monitoring of species identified under paragraph (1) and their habitats and the effectiveness of the conservation actions determined under paragraph (4), and for adapting conservation actions as appropriate to respond to new information or changing conditions;

(vi) provides for the review of the State wildlife conservation strategy and, if appropriate, revision at intervals of not more than ten years;

(2) A State shall provide an opportunity for public participation in the development of the comprehensive plan required under paragraph (1).

(3) If the Secretary finds that the comprehensive plan submitted by a State complies with paragraph (1), the Secretary shall approve the wildlife conservation and restoration program of the State and set aside from the apportionment to the State made pursuant to subsection (c) an amount that shall not exceed 75 percent of the estimated cost of developing and implementing the program.

(4)(A) Except as provided in subparagraph (B), after the Secretary approves a State's wildlife conservation and restoration program, the Secretary may make payments on a project that is a segment of the State's wildlife conservation and restoration program as the project progresses. Such payments, including previous payments on the project, if any, shall not be more than the United States pro rata share of such project. The Secretary, under such regulations as he may prescribe, may advance funds representing the United States pro rata share of a project that is a segment of a wildlife conservation and restoration program, including funds to develop such program.

(B) Not more than 10 percent of the amounts apportioned to each State under this section for a State's wildlife conservation and restoration program may be used for wildlife-associated recreation.

(5) For purposes of this subsection, the term "State" shall include the District of Columbia, the Commonwealth of Puerto

Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(16 U.S.C. 669c)

SEC. 5. For each fiscal year, the Secretary of the Interior shall certify, at the time at which a deduction or apportionment is made, to the Secretary of the Treasury and to each State fish and game department the sum which he has estimated to be deducted for administering this Act and the Migratory Bird Conservation Act and the sum which he has apportioned to each State. Any State desiring to avail itself of the benefits of this Act shall notify the Secretary of the Interior to this effect within sixty days after it has received the certification referred to in this section. The sum apportioned to any State which fails to notify the Secretary of the Interior as herein provided is authorized to be made available for expenditure by the Secretary of the Interior in carrying out the provisions of the Migratory Bird Conservation Act.

(16 U.S.C. 669d)

SEC. 6. (a) Any State desiring to avail itself of the benefits of this Act shall, by its State fish and game department, submit programs or projects for wildlife restoration in either of the following two ways:

(1) The State shall prepare and submit to the Secretary of the Interior a comprehensive fish and wildlife resource management plan which shall insure the perpetuation of these resources for the economic, scientific, and recreational enrichment of the people. Such plan shall be for a period of not less than five years and be based on projections of desires and needs of the people for a period of not less than fifteen years. It shall include provisions for updating at intervals of not more than three years and be provided in a format as may be required by the Secretary of the Interior. If the Secretary of the Interior finds that such plans conform to standards established by him and approves such plans, he may finance up to 75 per centum of the cost of implementing segments of those plans meeting the purposes of this Act from funds apportioned under this Act upon this approval of an annual agreement submitted to him.

(2) A State may elect to avail itself of the benefits of this Act by its State fish and game department submitting to the Secretary of the Interior full and detailed statements of any wildlife-restoration project proposed for that State. If the Secretary of the Interior finds that such project meets with the standards set by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require. If the Secretary of the Interior approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately set aside so much of said fund as represents the share of the United States payable under this Act on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof.

The Secretary of the Interior shall approve only such comprehensive plans or projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be ap-

plied only to such approved comprehensive wildlife plans or projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this Act. No payment of any money apportioned under this Act shall be made on any comprehensive wildlife plan or project until an agreement to participate therein shall have been submitted to and approved by the Secretary of the Interior.

(b) If the State elects to avail itself of the benefits of this Act by preparing a comprehensive fish and wildlife plan under option (1) of subsection (a) of this section, then the term "project" may be defined for the purposes of this Act as a wildlife program, all other definitions notwithstanding.

(c) Administrative costs in the form of overhead or indirect costs for services provided by State central service activities outside of the State agency having primary jurisdiction over the wildlife resources of the State which may be charged against programs or projects supported by the fund established by section 3 of this Act shall not exceed in any one fiscal year 3 per centum of the annual apportionment to the State.

(16 U.S.C. 669e)

SEC. 7. (a) When the Secretary of the Interior shall find that any project approved by him has been completed or, if involving research relating to wildlife, is being conducted, in compliance with said plans and specifications, he shall cause to be paid to the proper authority of said State the amount set aside for said project. The Secretary of the Interior may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States pro rata share of the project in conformity with said plans and specifications. If a State has elected to avail itself of the benefits of this Act by preparing a comprehensive fish and wildlife plan as provided for under option (1) of subsection (a) of section 6 of this Act, and this plan has been approved by the Secretary of the Interior, then the Secretary may, in his discretion, and under such rules and regulations as he may prescribe, advance funds to the State for financing the United States pro rata share agreed upon between the State fish and game department and the Secretary.

(b) Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of the Interior and in accordance with rules and regulations made pursuant to this Act. The Secretary of the Interior and the State fish and game department of each State may jointly determine at what times and in what amounts payments shall be made under this Act. Such payments shall be made by the Secretary of the Treasury, on warrants drawn by the Secretary of the Interior against the said fund to such official or officials, or depository, as may be designated by the State fish and game department and authorized under the laws of the State to receive public funds of the State.

(16 U.S.C. 669f)

SEC. 8. (a) Maintenance of wildlife-restoration projects established under the provisions of this Act shall be the duty of the State in accordance with their respective laws. Beginning July 1, 1945, the term "wildlife-restoration project", as defined in section 2 of this Act, shall include maintenance of completed projects. Notwithstanding any other provisions of this Act, funds apportioned to a State under this Act may be expended by the State for management (exclusive of law enforcement and public relations) of wildlife areas and resources. Funds from the Wildlife Conservation and Restoration Account may be used for a wildlife conservation education program, except that no such funds may be used for education efforts, projects, or programs that promote or encourage opposition to the regulated taking of wildlife.

(b) Each State may use the funds apportioned to it under section 4(c) to pay up to 75 per centum of the costs of a hunter safety program and the construction, operation, and maintenance of public target ranges, as a part of such program. The non-Federal share of such costs may be derived from license fees paid by hunters, but not from other Federal grant programs. The Secretary shall issue not later than the 120th day after the effective date of this subsection such regulations as he deems advisable relative to the criteria for the establishment of hunter safety programs and public target ranges under this subsection.

(16 U.S.C. 669g)

SEC. 8A. The Secretary of the Interior is authorized to cooperate with the Secretary of Agriculture of Puerto Rico, the Governor of Guam, the Governor of American Samoa, the Governor of the Commonwealth of the Northern Mariana Islands, and the Governor of the Virgin Islands, in the conduct of wildlife-restoration projects, as defined in section 2 of this Act, and hunter safety programs as provided by section 8(b) of this Act, upon such terms and conditions as he shall deem fair, just, and equitable, and is authorized to apportion to Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands, out of the money available for apportionment under this Act, such sums as he shall determine, not exceeding for Puerto Rico one-half of 1 per centum, for Guam one-sixth of 1 per centum, for American Samoa one-sixth of one per centum, and for the Commonwealth of the Northern Mariana Islands one-sixth of 1 per centum, and for the Virgin Islands one-sixth of 1 per centum of the total amount apportioned, in any one year, but the Secretary shall in no event require any of said cooperating agencies to pay an amount which will exceed 25 per centum of the cost of any project. Any unexpended or unobligated balance of any apportionment made pursuant to this section shall be available for expenditure in Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, or the Virgin Islands, as the case may be, in the succeeding year, on any approved project, and if unexpended or unobligated at the end of such year is authorized to be made available for expenditure by the Secretary of the Interior in carrying out the provisions of the Migratory Bird Conservation Act.
